PREFACE

Alberta Income Statistics, presents historical income statistics for the years 1973 to 1983 for Alberta and 1979 to 1983 for Alberta sub-provincial areas. A comparative table for Canada and the provinces is also included. Data are based on a sample of all Individual Income Tax returns collected by Revenue Canada, Taxation.

The income statistics are tabulated from Revenue Canada Taxation's Locality Code Statistics File. This file has been created by assigning each tax return to a locality through the mailing address on the tax-filer's return. The income statistics are based on the taxfiler's address at the time of filing for sub-provincial areas in Alberta.

This report provides information on the number of taxfilers, as well as the total and average income for both taxable and all returns at the provincial and sub-provincial levels. Data for sub-provincial areas (localities) are organized according to the following geographic hierarchy: census subdivisions (usually municipalities, such as counties, municipal districts, cities, towns and villages) aggregate to census divisions which in turn aggregate to the province.

It should be noted that in order to prevent the possibility of associating small figures with an identifiable individual, data for any municipality having a population less than 100, have been suppressed to meet the confidentiality requirements of Revenue Canada, Taxation.

Selected income data are available on ASIST (Alberta Statistical Information System), a computerized public data base maintained by the Alberta Bureau of Statistics. For further information on accessing ASIST or to obtain additional copies of this report, please contact Data Dissemination, Alberta Bureau of Statistics, (403) 427-3058.

GLOSSARY

AVERAGE INCOME - is equal to TOTAL INCOME divided by NO. OF FILERS

NUMBER OF FILERS - includes all those who have filed T1 Special and/or T1 General Individual Income Tax Returns for the Calendar or Taxation Year; are classified geographically by the filers mailing address at time of filing or as of 31-Dec-83.

TAXABLE RETURN - an income tax return upon which a tax of one dollar ($1.00) or more is assessed.

TOTAL INCOME - expressed in current dollars and is the sum total of the following components:

(a) Employment Income - consists of wages and salaries; taxable allowances and director's fees; gross compensation from employment; other employment earnings such as adult training allowances, net research grants, tips and gratuities. Allowable employment expenses have not been deducted from employment income.

(b) Pension Income - includes Old Age Security pension, Canada or Quebec Pension Plan benefits and other pensions or superannuation.

(c) Self-employment Income (Net) from businesses, farming and fishing as well as professional and commission income.

(d) Income From Other Sources

- taxable family allowance benefits
- unemployment insurance benefits
- taxable amounts of dividends
- bond interest
- bank interest
- mortgage interest
- income from trusts
- annuity income
- other Canadian investment income
- net rental income
- net taxable capital gains

(e) Miscellaneous Income

- alimony or separation allowances
- scholarships, fellowships, bursaries and prizes for achievement
- income from guaranteed annual wage plans
- taxable portion of payments from income maintenance plans

The following are not reported as income:

- Workers' Compensation payments
- Veteran's Allowances
- Social Assistance
- Guaranteed Income Supplement
- Spouse's Allowance
- Welfare payments
- Mother's Allowance
- Lottery Winnings
